UNTIL STRIKE ENDS.

sold in this city to-day brought \$20 a "There is more coal in the market now than there has been for some

what little anthracite coal that was sold in this city to-day brought \$20 a ten and there is no prospect of an immediate drop in the price, because the dealers profess to believe that John Mitchell will not accept the operators' proposition made to President Roosevelt and that the sirike will continue.

Only twenty cars of anthracite were received to-day at Perth Amboy. Elizabethport, Port Johnson, Weehawken, Guttenburg, Edgewater and Newburg, where all the hard coal for the local market is unloaded.

"The reason why the price remains at \$30 a ton and no contracts are being made for future delivery," said J. C. Hayden, of No. 1 Broadway, to the Evening World, "is because there is a feeling among the leaders that there will not be a settlement of the strike in the immediate future. It is the impression in the coal trade that John Mitchell will not order the miners to return to work. "Ever since the strike was declared we have been getting 600 tons of hard coal every day from the Oxford colleries at Scranton, which are operated behind a stockade at a heavy expense. With this coal we have been supplying our customers. Although the operators asid they would begin getting out coal last Wednesday under the protection of the militia, we have been unable to get at the market."

"There is more coal in the market in the row that there has been for some time. This is due to the fact that since the beginning of the settlement contents and the beginning of the settlement contents are delayed another. "But the prospect is not oright the negotiations are delayed another. Soft coal to deay for \$5.75 a ton, and very little of it is in the market, because the railroad companies are confiscating it in transit and storing it in the rails to day. An official of a prominent soft coal concern made the following statement on this line to an Evening World reported to the fact that since the degradations are delayed another. Soft coal transportation to this city, if President Cassatt when the proceeding of the section of the miners to r

&&&&&& MINERS OPPOSE RESTRICTION OF CHOICE OF ARBITRATORS TO THESE FIVE CLASSES OF MEN.

The operators in their plan submitted to the President ask that the arbitrators to end the coal strike shall consist of:

1. An officer in the Engineer Corps of either the military or naval service of the United States.

2. An expert mining engineer, experienced in the mining of coal and ether minerals, and not in any way connected with coal mining properties, either anthracite or bituminous.

One of the Judges of the United States Courts of the Eastern District of Pennsylvania.

4. A man of prominence, eminent as a sociologist.

5. A man who by active participation in mining and selling coal is familiar with the physical and commercial features of the business. It being the understanding that immediately upon the constitution of such a commission, in order that idleness and non-production may cease instantly, the miners will return to work and coase all interforence with and persecution of any non-union men who are working or shall hereafter work. **2444444444444**

"According to this." said DistrictAttorney Jerome, "we may have to ask
for another panel as what is left of this
may be exhausted in a day or two."

Roland B Molineux is a wonderfully
chasiged man from what he was the day
he was led to his first trial. His forehead is wrinkled across in four or five
heavy furrows. Between the eyes at the
top of the nose are perpendicular wrinkles.

The most noticeable change in him is that he has lost his athletic build. His chest is slightly shrunken, his shoulders are not so erect and square, he weighs less—it is not the physical Molineux who was tried before.

Like his father, he wishes to be pleasant, but the smile is hollow and it is evidently made with an effort.

While the talesmen were giving ex-

evidently made with an effort.
While the talesmen were giving excuses Molineux became greatly interested in three mural paintings on the front wall of the room. This was the first time he had been in this room and he was impressed with the clearars.

was the first time he had been in this room and he was impressed with the pictures.

The prisoner discussed the paintings with his father. In the centre the heroic figure of Justice, modelled from a handsome young woman, who held in one hand the evenly balanced scales and in the other the orb at authority, kept the prisoner's attention for a long time. "The red in the flag does not seem red enough," he said to his father, "but outside of that I think the picture is perfect. The two little children, one with the sword and the other with the dove, are perfect."

Molineux also expressed opinions upon the panels of "Liberty, Fraternity and Equality," and "Severer, Measurer and Spinner." The latter he admired especially.

Grown Out of Grudge, and Accused Man Arrested.

Detective Cafferty, of the East One Court to-day John Rio, of No. 210 East One Hundred and Eleventh street, "Do you believe in capital punish-ment?" Assistant District Atorney Ely killed George Jaccino, of No. 257 East asked Mr. Tesla. One Hundred and Eleventh street, on

Jaccino was said to have been accidentally shot by a man who came in to have a revolver repaired by him. The man was not known and he ran away, but the Coroner's jury decided that the shooting was accidental. Detective Cafferty kept on the case and found that Rio had a grudge against Jaccino and that he had run away from home the day of the shooting.

Magistrate Zeller said that as the Coroner's jury had decided that the shooting was accidental he could not hold the man on the charge of homicide. He consented to keep Rio locked up until Cafferty could consult with the District-Attorney.

cured a quantity of money, but had overlooked \$5,000 worth of diamonds concealed in a trunk.

A bottle of morphine tablets was found in another pocket, and Dawson's appearance indicates that he was addicted to the drug and was probably under its influence when he planned to get the Watkins jewels, told of in the clipping. The young man was neatly dressed in black. He had the appearance of a bank clerk, Following his threat to drop the bag the letter he handed Mrs. Watkins read as follows: More of the Threatening Letter.

More of the Threatening Letter.

"It has come to my knowledge that you have several thousand dollars worth of diamonds. I want them at once. If you do not give them to me I shall drop the bag.

"Do not say to yourself, 'he will not do it, because if he did, he himself would die.' I do not fear death. If I do not have money to-morrow, I might better be dead than living.

"This is the position I am in. I have been going with fast companions, and in order to keep up the pace, I took money, a large amount, from the firm that I am employed by. If I cannot replace it by to-morrow, my crime will be discovered, and I shall go to prison.
"I am of good family, and rather than diagrace them by lingering out a term of years in prison I would prefer death. I do not say that it is my wish to die. None reality wish to, but under certain circumstances it becomes necessary. Crime is not my trade, and when I replace the money that I took from my employers it is my firm intention to do entirely different."

Not withstanding the terrible fright they had gone through Mrs. Watkins and her daughter were quite composed when they reached court to testify against Dawson. Magistrate Cornell publicly complimented them on their bravery.

Mullin, and that he persuaded her to be- a tragedy after all. Charles W. Balley, of Philadelphia, who married his wife, nimself as wealthy and as having a good then Mrs. Chauncey B. Kerr, of this social position in New York, where he city, soon after they had been shot by

His action caused a sensation in Philadelphia, where the Bailey family is one of the best known in the city both financially and socially. The shooting of the couple was involved in much mystery at the time.

It occurred a year ago in September. There was a shooting party on the preserves of the Tahawus Club, miles away from civilization. Balley and Mrs. Kerr were in it. So was Dr. Dade, a physician of this city. Mrs. Kerr, a rich widow, the daughter of Mrs. E. Frank Coe, of No. 68 Fifth avenue, and Mr. Bailey, a widower, and the son of the President of the Bailey, Banks & Biddle Company, of Philadelphia, were very friendly.

Mistook Them for Deer.

One evening at dusk they were sitting n a runway talking. They saw Dr. come along with a gun in his hand. He drew a bead on them. Mr. Kerr saw him and mentioned it to her companion, who turned. Just then there was a shot and a ball pierced Bailey's back, went clear through and shattered Mrs. Kerr's knee. screams brought Dr. Dade and others to hem. Dr. Dade was almost crazed when he found what he had done. He had mistaken Bailey's tan colored coat

for a deer. Bailey was not dangerously hurt, but it was seen that if Mrs. Kerr's life was to be saved an operation was necessary. and he made a wild dash to the mountains. The leg was cut off and Mrs. Kerr recovered. So did Bailey. They were both brought to this city, and as soon as Mrs. Kerr was able to stand they were married in her mother's

This was on Nov. 9, 1901. The couple traveled extensively abroad and then returned to live in Philadelphia. It was said at the time that while Bailey had been in love with Mrs. Kerr for some time, he bad not been engaged to her

"I've got that 'want more H-O' habit."

H-O tastes all the better because you know it's going to do you good. Don't think that in order to eat oatmeal you must eat bitter, gritty, starchy oatmeal. H-O has all the good of oatmeal in it with none of the bad. It is oatmeal raised to the third power.
